Please Join Us

Please join us for the 2018 Advances in Child Injury Prevention Conference on May 30th-31st, 2018 at the Inn at St. John’s in Plymouth, MI presented by the Center for Child Injury Prevention Studies (CChIPS).

The conference presents child occupant safety professionals with the latest research in traffic safety for children and adolescents. Representatives from industry, government, and organizations involved in research and development, product design, and safety policy and regulation hear about recent findings in an informal setting that promotes open group discussion following each presentation.

The event will begin with a reception on the evening of Wednesday, May 30th, 2018 at the Inn at St. John’s in Plymouth, MI. Conference presentations will be given the following day, concluding in late afternoon. Presentation topics will be forthcoming closer to the date.

Registration Fees for Conference + Evening Reception:

- Individual: $195 per attendee
- 5 or more attendees from one company: $145 per attendee
- 20 or more attendees from one company: $2,000 flat rate
- Nonprofit company discount: $125 per attendee

Conference registration will open in 2018. In the meantime, you may contact us with any questions at cchips@email.chop.edu.

CPS CEU Credit will be available to ACIP 2018 attendees. Details forthcoming.

About CChIPS

The Center for Child Injury Prevention Studies (CChIPS) at The Children’s Hospital of Philadelphia (CHOP) and the Ohio State University is a National Science Foundation Industry/University Cooperative Research Center (I/UCRC) that focuses exclusively on making children and adolescents safer. Through CChIPS, researchers work side by side with industry members to conduct translational research that is practical to industry. This synergistic collaboration between industry and academia creates an ideal environment for generating ideas for new research projects and to leverage shared expertise and resources. Current CChIPS member companies include American Honda Motor Co., Inc., Britax Child Safety Inc., Calspan Corporation, Consumer Reports, Evenflo Company Inc., FCA LLC US, Federal Aviation Administration, General Motors Holdings LLC, Graco Children’s Products Inc., Humanetics Innovative Solutions Inc, Lear Corporation, Minnesota HealthSolutions, The National Highway Traffic Safety Administration, Safe Kids Worldwide, State Farm Mutual Automobile Insurance Company, TK Holdings Inc., Toyota Motor North America Inc., and Transportation Research Center Inc.
